SUMMARY: I called Linda to discuss letter from Senator Bradley concerning a person reported missing by his family in New Jersey. The individual [redacted] called his family from Washington DC area to say he was being detained against his will by several military officers at a place he described as the "Marine Defense Covert Operations (202) 554-7000."

I explained to Linda that I had taken it upon myself to call that number and a recorded voice responded "Daily Made Service" and I called again and spoke with a gentleman who described his establishment as one having 114 women maids and no male maids. He did not know anyone by the name of subject.

I then suggested to Linda that since this was a matter involving an alleged kidnapping, it was not within our area of responsibility to investigate. She then said she would query the FBI.

No need for a written response.
